

OLAJIDE OYINDAMOLA

Medical Virtual Assistant | Virtual Assistant — Patient Coordination, EHR & Practice Support

Lagos, Nigeria (Remote/Global) | olajide.jayhoney@gmail.com | linkedin.com/in/olajide-oyindamola

PROFESSIONAL SUMMARY

Medical Virtual Assistant in training with 7+ years of executive support, operations, and client-facing experience, now applying that foundation to HIPAA-compliant patient care coordination. Hands-on with EHR patient registration and encounter documentation (OpenEMR), insurance eligibility verification, prior authorization tracking, and medical data entry, built through a structured MVA program covering medical terminology, HIPAA, SOAP notes, and the insurance/billing cycle. Track record of improving customer retention by 30% and sustaining a 95% satisfaction rate through calm, structured, empathetic communication. Comfortable owning a provider's inbox, calendar, and patient-facing channels from day one.

CORE COMPETENCIES

Medical Virtual Assistance

- HIPAA-compliant patient communication (phone, chat, email, portal)
- Patient intake, registration & EHR documentation (OpenEMR)
- Appointment scheduling & provider calendar management
- Insurance eligibility verification (7-step workflow)
- Prior authorization request & follow-up tracking
- SOAP note structure & task extraction
- ICD-10 / CPT / HCPCS code awareness & claim support
- HMO/insurance plan interpretation (copay, deductible, coinsurance)

General VA & Operations

- Executive & calendar support
- CRM documentation & reporting (Zoho)
- High-volume email & phone support
- Complaint resolution & escalation handling
- Process improvement & SOP development
- Data analysis & reporting (Excel, MySQL)
- Client relationship management
- Cross-functional & remote team collaboration

TECHNICAL & SOFTWARE SKILLS

EHR / Medical Systems: OpenEMR (registration, scheduling, encounters, billing manager) — working familiarity with Epic and Kareo/Tebra workflows

Compliance: HIPAA Privacy & Security Rules, PHI handling, Minimum Necessary Standard

Insurance & Billing: Eligibility verification, prior authorization, copay/deductible/coinsurance, claim denial triage, EOB review

CRM & Productivity: Zoho, Trello, Notion, Asana, Google Workspace, Microsoft Office (Word, Excel, PowerPoint, Outlook)

Communication: Zoom / Zoom for Healthcare, Doxy.me, MS Teams, Slack

Data & Design: Advanced Excel, MySQL, Canva, Mailchimp

PROFESSIONAL EXPERIENCE

Executive Assistant / Business Development Manager to the CEO

Feb 2018 – Dec 2025

Morgan Global Access Consultants Limited — Lekki Phase 1, Lagos

- Served as first point of contact for clients and partners, handling high-volume inquiries by phone and email with fast, professional turnaround — the same intake discipline required for patient-facing MVA work.
- Resolved client issues and complaints within defined timelines, contributing to a 30% improvement in retention.
- Identified client needs and coordinated solutions, sustaining a 95% satisfaction rate across all service interactions.
- Logged and tracked communications, follow-ups, and outcomes in structured records — directly transferable to EHR documentation and encounter notes.
- Managed executive calendars and schedules, reducing operational delays by 15%.
- Streamlined internal communication processes, contributing to a 20% increase in team productivity.

Head of School

Jan 2021 – Dec 2023

International Bridge Education — Remote, Lagos, Nigeria

- Acted as key point of contact for parents, staff, and stakeholders, resolving concerns with patience, discretion, and sound judgment.
- Implemented structured communication and reporting processes, improving response time to inquiries by 20%.

- Tracked performance against goals through regular operational reporting — the same rigor applied to insurance verification and prior-auth tracking.
- Maintained service quality and stakeholder trust while overseeing daily remote operations.

MEDICAL VIRTUAL ASSISTANT TRAINING — VAA GLOBAL (IN PROGRESS, 2026)

Structured, hands-on program covering the full MVA skill stack:

- Medical terminology, HIPAA compliance, and PHI handling — instructor-rated as excellently understood and applied.
- Patient communication scripts using the VERBAL, WRITTEN, CHATS, and EMAIL frameworks for phone, portal, chat, and email.
- Patient intake form creation, appointment scheduling, and EHR patient registration in OpenEMR.
- SOAP note structure (Subjective, Objective, Assessment, Plan) and provider task extraction.
- Insurance verification (7-step workflow), prior authorization submission and tracking, and HMO/insurance plan interpretation.
- Medical data entry accuracy standards, ICD-10/CPT/HCPCS code recognition, and the medical billing cycle.

Instructor feedback: rated as delivering "excellent" work on HIPAA-safe communication and confident, well-structured EMR navigation across every submitted assignment.
